📁 PROJECTS

Tech Blog, *Web App* ⧉
- Develop this project to help coders to upload their code and showcase their knowledge to the coding community.
- Users can **signup**, sign in, **upload code** in the text format, attach an image of the output, comment, like, etc.
- This web app is developed using - **HTML, CSS, JSP & Servlet, and MySQL**. Github ⧉

Connect Coder, *Android App* ⧉
- This app is like a social media app where coders connect with each other and share their thoughts with coders.
- Here users can register, **signup using google**, and **upload codes** in any format like(**Image, pdf, Word, Excel, zip**).
- Users can **search for a coder** based on their profession, **message them** and also like and comment on their post.
- This app is developed using - **Kotlin, XML, and Firebase**. GitHub ⧉

🏅 ACHIEVEMENT

- Received award for **Best People** and **Client value creation** from **Accenture**.
- Achieved **Expert Proficiency** in **Java** from **Accenture**.
- Completed **Certification** in **Android App Development** and **Java with DSA**.
- Solved **50+ DSA coding** questions from **LeetCode** ⧉ and **GFG** ⧉ .
